Special Correspondence of the Alexa. Gazette WASHINGTON, D. C., Oat. 24, 1879. The funeral of the late late Mrs. Gales is said to have been distinguished by the presence of all the old society people of the District of Columbia, those who were the leaders of society here before the war, and who now form an exclusive class into which the shoddy aristocracy of the capital cannot enter, and the equally observable absence of any of the latter class. ladeed the faneral, in all its particulars, tended to bring back recollections of the good old times so was the furniture and every thing about it. The floors were bare, as the time had not arrived, according to the old rule, for putting down the earpers, and the coffin rested in the chamber in which the old lady died. Every thing was nest and p'a'n, and genteel, and there was none of the display that characterizes too many funerals now a days.

The statement to the effect that Mr. Hayes

offered the British mission to Mr. Everts, yes-terday, is doubted by some and credited by others. All, however, agree that Mr. Evarts will not accept it, for two ressons : his present position is more agreeable and less expensive, and strange as it may seem Mr. Evarts has got the presidential bee in his bonnet, and thinks it by no means impossible that among the numerous aspirants for the presidency he may be se-

The receipts at the Treasury to day from ineinst revenue amounted to \$423 343; from customs, \$621,581. The national bank notes received for redemption amounted to \$150,000.

Yesterday morning he made an autopsy of the body with the mest astonishing result. He discovered another unborn baby, which evidently had been overlooked when the dectors relieved the moth-er of the first child. Baby No. 2 was well formed and large, and when alive must have been healthy. There was no appearance or indication of purreeral fever, but instead there was a malignant form of Bright's disease.
